

HOPE FOR AMERICA

Dear Coordinator and Partner,

Our hearts are thrilled at the opportunity to join you for a united rally that will emphasize the heritage of our great nation and the vital importance of clinging strongly to our Judeo-Christian foundations.

As Christian conservatives we are under attack from every angle. We are being forced to accept that abortion is not only ok, but is the acceptable, moral choice. We are being brainwashed into the political correctness of accepting multiple varieties of same sex marriages and unions as socially profitable and expedient. We are being told by the federal government that as church leaders we cannot speak on certain issues without interference from the IRS. *We must draw the line.*

It was upon the Bible and Christian values that this nation was founded. It was upon these principles that America became the great beacon of freedom. It is upon these principles that America must stand if we desire to pass on our freedoms and greatness to future generations. It is for this cause that we are excited about joining you and working together with these "Hope For America" rallies. The time could not be more vital, nor the message more needed than in these perilous days which we are in.

We want you to know that our entire organization stands ready to assist you in the coming weeks. God has put together an amazing team here that is fully dedicated to His cause and to the success of these rallies. Each one of us will do all that is possible to insure that the forthcoming rally is not only a victory, but most importantly glorifying to God and, prayerfully, an impetus that will help re-chart the course for many in attendance.

Much work will be placed into the near rally; however it is not our mere efforts that will make it a success. Only the breath and hand of God Almighty will deliver the results that are needed to impact America through these efforts. With this in mind, above all work and efforts, *please pray* for God to move among hearts and stir the spirit of revival throughout our nation.

Dr. Hice and I personally look forward to the rally and are prayerfully expecting great victory.

Aaron Evans
